Description of cremation container: ALTERNATIVE CONTAINER

Description of container for cremated remains: TEMPORARY PLASTIC URN

The undersigned acknowledge(s) reading and understanding the following statement: "The human body burns with the casket, container or other material in the cremation chamber. Some bone fragments are not combustible at the incineration temperature and, as a result, remain in the cremation chamber. During cremation, the content of the chamber may be moved to facilitate incineration. The chamber is composed of ceramic or other material which disintegrates slightly during each cremation and the product of that disintegration is commingled with the cremated remains. Nearly all of the contents of the cremation chamber, consisting of the cremated remains, disintegrated chamber material, and small amounts of residue from previous cremations, are removed together and crushed, pulverized, or ground to facilitate inurnment or scattering. Some residue remains in the cracks and uneven places of the chamber. Periodically, the accumulation of this residue is removed and interred in a dedicated cemetery property, or scattered at sea." (Health and Safety Code Section 7054.7(b))

The undersigned authorize(s) the crematory to make a reasonable effort to recover all metal removed from the chamber with the remains, to discard metal used in construction of the casket or container, prosthesis and other metal, and to place in the cremated remains container recovered dental gold and silver, jewelry or mementos that are identified as belonging to the decedent. If the cremated remains container is of insufficient capacity to accommodate all cremated remains, I/we acknowledge any excess will be placed in a secondary cremated remains container at no additional cost. (Health and Safety Code Sections 7051 and 8345.)

The undersigned warrant(s) that the remains **DO** _____ **DO NOT** _____ contain a pacemaker, or other explodable implants or devices.

In the event that the cremated remains are not claimed within ninety (90) days from the date of death, the undersigned hereby acknowledge(s) that Community Crematory is legally mandated to dispose of the cremated remains according to law.

The undersigned hereby acknowledge(s) that, unless the decedent, prior to death, directed his or her own disposition, the right to control vests in and devolves upon the following in the order named: (1) Durable Power of Attorney for Health Care (2) The surviving spouse. (3) The surviving child or children of the deceased, provided that, in the absence of actual knowledge to the contrary, a funeral director or cemetery authority may rely on instruction given by a child or children who represent (A) that they are the sole surviving child or children; (B) that they constitute a majority of the surviving children; or (C) that they have used reasonable efforts to notify all other surviving children of their instructions and are not aware of any opposition to those instructions on the part of one-half or more of all surviving children.
